

The diagram illustrates a conversation between a user and an AI system. On the left, a user icon (a person at a laptop) asks: "Is endosonography valuable in dyschesia?". A large blue arrow points from the user's question to an AI icon (a robot head). The AI responds: "Yes. Endosonography demonstrated incomplete relaxation .....". This response is then evaluated by a table on the right.

Score	Type	Data
0.23	Fine-Tune	<b>Instruction:</b> Does macular degeneration increase risk of falls? <b>Output:</b> Yes. Patients with advanced AMD are at higher risk...
